

# Product Compliance Information

## Untreated MGP Graded Timber – AKD Framing

### MGP timber products are tested, graded and certified to the following standards:

- AS/NZS 1748.1 “Timber – Solid – Stress Graded for Structural Purposes, Part 1: General requirements”,
- AS/NZS 4490 “Timber – Solid – Stress graded for structural purposes – Verification of properties”
- Our products are audited under the “Solid Timber Certification Scheme STCS” by Engineered Wood Products Association of Australasia “EWPAA” to properties tabulated in AS1720.1 “Timber Structures, Part 1: Design methods”.

### PRODUCT DETAILS:

- The untreated MGP graded product can be used as described in the relevant construction standards *AS 1720.1 Timber Structures – Design Methods* and the supplements of *AS 1684 suite of standards Residential Timber Framed Construction*, and as described in the *National Construction Codes*.

### USAGE LIMITATIONS:

- The product is not waterproof and must be completely protected from weather, ground contact and protected from termites.
- The MGP grade, production date and time are branded on each piece of timber at least once as required by AS/NZS1748 and to provide traceability back to batch compliance information. If users of this timber process timber so that such branding is not visible by, for example docking or machining, the user needs to ensure that records are kept so that grade and production date and time can be demonstrated for all components derived from longer lengths supplied by AKD.

### MILL & TREATMENT PLANT IDENTIFICATION:

COLAC	TUMUT	HPP	CABOOLTURE
53	41	50	51

### PRODUCT DESCRIPTION:

CROSS SECTION	GRADE
70x35	MGP Grades (MGP10, MGP 12 MGP 15)
90x35	
120x35	
140x35	
190x35	
70x45	MGP Grades (MGP10, MGP12, MGP 15)
90x45	
120x45	
140x45	
190x45	
240x45	
290x45
